

PHILOSOPHY OF EDUCATION

The education of its students is the primary objective of this district. Education is both a right and a privilege, and all students attending this school are entitled to grow intellectually, morally, and physically.

We believe that all students can make a beneficial contribution to the democratic society in which we live. Although the abilities and learning requirements of each student may be different, all students can succeed if provided equitable opportunities to develop competencies in basic academic skills and higher-order thinking skills.
